COURSE PROFILE

| Course Name | Code | Semester | Term | Theory <br> +PS+Lab. <br> (hour/week) | Local Credits |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Statistics II | MATH <br> 232 | Spring | 4 | (3+0+0) | 3 |

| Prerequisites | Math231 |
| :--- | :--- | :--- |

| Course Language | English |
| :---: | :---: |
| Course Type | Required |
| Course Lecturer | - Prof. Dr. Müjgan Tez |
| Course Assistant | - None |
| Course Objectives | The course is the continuation of MATH231. The purpose of the course is to provide the students with tools that help us understand how some more advanced techniques in statistics such as two sample tests of hypothesis, analysis of variance as well as linear regression and correlation, multiple regression and chi-square applications are constructed, developed and applied. |
| Course Learning Outcomes | By the end of this course, students will be able to: <br> 1. demonstrate an understanding of two-sample hypothesis testing <br> 2. compute and interpret correlation between two variables <br> 3. distinguish between one-sample and two-sample tests of hypothesis <br> 4. interpret and use a linear and multiple regression model for purposes of description and prediction <br> 5. recognize the basic logic of ANOVA <br> 6. interpret and use ANOVA tables to draw conclusions about populations <br> 7. interpret and use the chi-square goodness of fit test to ascertain whether the data from a process fit a specified distribution <br> 8. demonstrate the ability to apply appropriate statistical techniques to analyze data . |
| Course Content | Two-sample hypothesis testing; analysis of variance; linear regression and correlation; multiple regression and correlation analysis; chi-square applications for nominal data; timeseries analysis. |

## COURSE CONTENT

| Week | Subjects | Related <br> Preparation |
| :--- | :--- | :--- |

| 1 | Continuous Probability Distributions, The family of Uniform <br> Distributions, The Standard Normal Distribution | 10 |
| :---: | :--- | :--- |
| 2 | Finding Areas Under the Normal Curve, Sampling Methods, <br> Reasons to sample, Simple Random Sampling, Systematic Random <br> Sampling,Sampling Error | 10,11 |
| 3 | Sampling Distribution of the Sample Mean, The Central Limit <br> Theorem | 11 |
| 4 | Estimation and Confidence Intervals, Point Estimates and <br> Confidence İntervals, Known Sigma or a Large Sample | 12 |
| 5 | A confidence Interval for a Proportion, Finite population Correction <br> Factor, Choosing an Appropriate Sample Size | 12,13 |
| 7 | One Sample Tests of Hypothesis, Five step Procedure for Testing a <br> Hypothesis | 14 |
| 8 | One-Tailed and Two-Tailed Tests of Significance, Testing for a <br> population Mean with a Known Population Standard Deviation | 14 |
| 12 | p-value in Hypothesis Testing, Testing for a Population Mean: Large <br> Sample, Population Standard Deviation Unknown, Test Concerning <br> Proportions | 15 |
| 12 | Two Sample Tests of Hypothesis, Independent Samples, Two- Comparing Dependent and <br> Sample Tests about Proportions, <br> independent Samples | 15,16 |
| 10 | Analysis of Variance, The F Distribution, Comparing Two Population <br> Variances | 16 |
| 11 | Anova Assumptions, The Anova Test, Inferences about Pairs of <br> Treatment Means | 16 |
| 13 | Linear Regression and Correlation, The Coefficient of Correlation, <br> The Coefficient of Determination, Testing the significance of the <br> correlation coefficient, | 17 |
| Regression Analysis, Leasy Square Principle,The Standard Error of <br> Estimate, Confidence and Prediction Intervals | 17 |  |
| Multiple Regression and Correlation Analysis, The Anova table, |  |  |
| Evaluating the Regression Equation |  |  |

| Course Textbooks | DA Lind, WG Marchal, SA Wathen, Statistics for Business and Economics, $8^{\text {th }}$ ed. McGraw-Hill |
| :--- | :--- | :--- |
|  | KELLER, G., STATISTICS FOR MANAGEMENT AND ECONOMICS, 8th ed., South-Western <br> College Pub (January 8, 2008). |
| Recommended | 1.MCCLAVE-SINCICH., STATISTICS, Eleventh Edition.,Pearson Prentice Hall (2009) <br> 2. KELLER, G., STATISTICS FOR MANAGEMENT AND ECONOMICS, 8th ed., South- <br> References |

| Semester Requirements | Number | Percentage of Grade |
| :---: | :---: | :---: |
| Attendance/Participation | 14 | 5 |
| Laboratory | - | - |
| Application | - | - |
| Special Course Internship (Work Placement) | - | - |
| Quizzes/Studio Critics | - | - |
| Homework Assignments | 13 | - |
| Presentation | - | - |
| Project | - | - |
| Seminar/Workshop | - | - |
| Midterms/Oral Exams | 2 | 60 |
| Final/Resit Exam | 1 | 35 |
| Total | 30 | 100 |

| PERCENTAGE OF SEMESTER WORK | 29 | 65 |
| :--- | :--- | :--- |
| PERCENTAGE OF FINAL WORK | 1 | 35 |
| Total | 30 | 100 |

| Course Category | Core Courses |  |

## COURSE'S CONTRIBUTION TO PROGRAM

| \# | Program Qualifications / Outcomes | * Level of Contribution |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | 1 | 2 | 3 | 4 | 5 |
| 1 | To have a grasp of basic mathematics, applied mathematics and theories and applications of statistics. |  |  |  |  | X |
| 2 | To be able to use theoretical and applied knowledge acquired in the advanced fields of mathematics and statistics, |  |  |  |  | X |
| 3 | To be able to define and analyze problems and to find solutions based on scientific methods, |  |  |  |  | X |
| 4 | To be able to apply mathematics and statistics in real life with interdisciplinary approach and to discover their potentials, |  |  |  | X |  |
| 5 | To be able to acquire necessary information and to make modeling in any field that mathematics is used and to improve herself/himself, |  |  |  | X |  |
| 6 | To be able to criticize and renew her/his own models and solutions, |  |  |  |  | X |
| 7 | To be able to tell theoretical and technical information easily to both experts in detail and nonexperts in basic and comprehensible way, |  |  |  | X |  |
| 8 | To be able to use international resources in English and in a second foreign language from the European Language Portfolio (at the level of B1) effectively and to keep knowledge up-to-date, to communicate comfortably with colleagues from Turkey and other countries, to follow periodic literature, |  |  |  | X |  |
| 9 | To be familiar with computer programs used in the fields of mathematics and statistics and to be able to use at least one of them effectively at the European Computer Driving Licence Advanced Level, |  |  |  |  | X |
| 10 | To be able to behave in accordance with social, scientific and ethical values in each step of the projects involved and to be able to introduce and apply projects in terms of civic engagement, |  |  |  | X |  |
| 11 | To be able to evaluate all processes effectively and to have enough awareness about quality management by being conscious and having intellectual background in the universal sense, |  |  |  | X |  |

12 By having a way of abstract thinking, to be able to connect concrete events and to transfer solutions, to be able to design experiments, collect data, and analyze results by scientific methods and to interfere,

13 To be able to continue lifelong learning by renewing the knowledge, the abilities and the compentencies which have been developed during the program, and being conscious about lifelong learning,

14 To be able to adapt and transfer the knowledge gained in the areas of mathematics and statistics to the level of secondary school,

15 To be able to conduct a research either as an individual or as a team member, and to be effective in each related step of the project, to take role in the decision process, to plan and manage the project by using time effectively.

*1 Lowest, 2 Low, 3 Average, 4 High, 5 Highest

ECTS ALLOCATED BASED ON STUDENT WORKLOAD BY THE COURSE DESCRIPTION

| Activities | Number | Duration (Hours) | Total Workload |
| :---: | :---: | :---: | :---: |
| Course Hours (Including Exams) | 14 | 3 | 48 |
| Tutorials | - | - | - |
| Laboratory | - | - | - |
| Application | - | - | - |
| Special Course Internship (Work Placement) | - | - | - |
| Field Work | - | - | - |
| Study Hours Out of Class | 14 | 2 | 28 |
| Presentations / Seminar | - | - | - |
| Project | - | - | - |
| Preparatory reading | 13 | 1 | 13 |
| Homework Assignments | 13 | 1 | 13 |
| Quizzes | - | - | - |
| Midterm Exams | 2 | 6 | 12 |

| Final / Resit Exam | 1 | 11 | 11 |
| :--- | :--- | :--- | :--- |
|  |  |  | Total Workload |
