

COURSE PROFILE

Course Name	Code	Semester	Term	Theory+PS+Lab (hour/week)	Local Credits	ECTS
Leadership and Innovation in Information Technology Management	MIS544	Spring	2	3 + 0 + 0	3	8

Prerequisites	None
----------------------	------

Course Language	English
Course Type	Elective
Course Lecturer	Assist. Prof. Fatih Özyaydin
Course Assistant	Büşra Özdenizci
Course Objectives	This course aims to provide essentials of innovation management and leadership concepts in information technology perspective.
Course Learning Outcomes	Upon successful completion of the course, students will be able to: <ul style="list-style-type: none">• Have a basic knowledge on innovation management concepts and leadership issues• Understand the importance of these concepts in Information Technology business world• Learn effective leadership techniques from the business world by performing field study projects
Course Content	Identifying, motivating, and organizing innovative people into highly productive technology teams. Management of technical people and demonstration of leadership for project leaders and managers. Recognizing and recruiting talented people for the right job, and effectively managing those people and coaching them with effective leadership techniques.

COURSE CONTENT

Week	Subjects	Related
1	Introduction	
2	Leadership and Innovation	
3	Innovation Management	
4	Innovation Management Concepts	
5	Innovation in Information Technologies	
6	Innovation in Information Technologies	
7	Review	
8	Leadership and Information Technology Management	
9	Project Management, Project Leaders and Managers	
10	IT Leaders and Managers	
11	Executive and Entrepreneurial Leadership	
12	Effective Leadership Techniques	
13	Effective Leadership Techniques	
14	Review	

Course Textbook	Not required

Semester Requirements	Number	Percentage of Grade
Attendance/Participation		
Laboratory		
Application		
Special Course Internship (Work Placement)		
Quizzes/Studio Critics		
Homework Assignments		
Presentation		
Project	1	20
Seminar/Workshop		
Midterms/Oral Exams	2	40
Final/Resit Exam	1	40
Total		100

PERCENTAGE OF SEMESTER WORK		40
PERCENTAGE OF FINAL WORK		60
Total		100

Course Category	Core Courses	
	Major Area Courses	X
	Supportive Courses	
	Media and Management Skills Courses	
	Transferable Skill Courses	

COURSE'S CONTRIBUTION TO PROGRAM

#	Program Qualifications / Outcomes	* Level of Contribution				
		1	2	3	4	5
1	An ability to use the theoretical and applied foundations in mathematics and basic sciences acquired in the undergraduate level to the solutions of problems in information technology area		X			
2	An ability to analyze a graduate level problem, identify and define the computing requirements appropriate to its solution, to understand, select and use appropriate technology, tools, standards, protocols, building blocks, and components to solve the problem					X
3	An ability to propose, analyze, design, develop, test and maintain an information technology system including software solutions, security model, computer and network infrastructure, information systems etc. to solve graduate level information technology problems			X		
4	An ability to analyze and communicate local and global impact of computing on individuals, organizations and society; and the ability to apply information technology techniques, skills, and tools for regular computing practices as well as to improve effectiveness of current methodologies		X			
5	An ability to effectively communicate in oral and written media with all kinds of related audiences, prepare documentation for this purpose; and acquire academic writing skills in a foreign language		X			
6	An ability to understand and teach professional, ethical, legal, and social issues and responsibilities of information technology profession and research				X	
7	An ability to gain knowledge and conduct research on topics inside and outside the requirements of the information technology profession, and the ability to lead and work within heterogeneous teams of people from different research areas to accomplish interdisciplinary research					X
8	An ability to engage in life-long learning and professional development for personal improvement to follow contemporary information technology research			X		

*1 Lowest, 2 Low, 3 Average, 4 High, 5 Highest
