

**Associate Prof. Dr. Hülya  
SİREL KILIÇ**

**Interior Architecture  
Department  
hulya@yfu.com**

Born in Nizip in 1954. She graduated from Erenkoy Girls' High School in 1971 and from the the Department of Architecture in Mimar Sinan University (with a master degree) in 1978. She began working as an assistant lecturer in the Department of Structure Physics at the Faculty of Architecture in Yildiz University (IDMMA). She completed her PhD study in 1984, and became an associate professor in 1991. She gave lectures on structure physics, architectural lighting, city lighting (outdoor lighting), architectural acoustics, sunlight control in architecture, and heating and humidity control. She conducted master thesis projects. She resigned from her full time work in 1993. She attended national and international academic meetings related to her expertise by giving papers. She published her articles in various books and publications.

Besides being a member of vocational associations such as Turkish National Committee of Lighting and Turkish Acoustics Association, she worked in social help associations. Please check out the web site. ([www.hulyasirel.com](http://www.hulyasirel.com)) if you need further information about her publications, works and lectures.

She is giving lectures on architectural lighting, outdoor lighting and museum lighting at Isık, Yildiz and Mimar Sinan Universities. She published 4 books about lighting and sun control, and also articles and papers presented at national and international seminars.
