FINDING A TRAINEESHIP/INTERNSHIP

The Consortium will provide support to Erasmus participants for all pre-mobility and post-mobility processes by helping them improve the effectiveness of their academic and professional development when looking for an internship as well as by helping them establish direct contact with the host organisations.

The Consortium will be directly involved in helping students find an internship, it **reserves the right not to guarantee an internship** job for each selected student as the host organizations' hiring policy will be directly proportional to the organizations' expectations

from the applicants. **Students too are required to take active parts in the internship-seeking process.** Workshops and seminars will be held to provide students with further information on how to find an internship position.
