INTRODUCTION TO THE TOPIC

Directions: You will have 10 minutes to look at the pictures and read the information on the back of this page.

This information will introduce the general topic of the exam, and the questions are to encourage you to think about what information you will read and hear. The topic will be the same for all parts of the exam.

You will NOT be graded on this part of the exam.

RESEARCH AND DEVELOPMENT

Research and Development is important for governments.

How do governments support R&D activities?

Research and development (R&D) means discovering new knowledge, and then applying that knowledge to create new and improved products and services.

Globally known companies invest in R&D activities.

In what ways can companies engage in R&D?

R&D activities are performed by technical universities or research institutes.

Healthcare sectors benefit from R&D activities.
