“ Hand and brain coordination can make you productive; When you add emotion, intelligence and analytical thinking skills to this, the art and design process begins.”

Sibel Avci Tuğal graduated from Istanbul Technical University with a B.S. in Electronics Engineering. In addition to her engineering career, she continued her art studies. She started to draw graphic design drawings, original illustrations and compositions with computers from 1995 onwards. She took part in the founding staff of Işık University Fine Arts Faculty in 2007 and started working as a lecturer. She completed her Master's Degree in Art Theory and Criticism (M.A.) at Isik University, Institute of Social Sciences, in 2011. She received her Cinema and Television Department Proficiency in Arts (Eq.Ph.D. Arts) degree from Beykent University SBE, which she started in 2013, with her experimental short film project "Red Square" in 2016. She completed the Işık University SBE Art Science Department Art Science Doctorate Program, which started in 2013, with her doctorate study on "Electronic Art and New Trends in the 21st Century" and received his Doctorate (Ph.D.) degree in 2017. Her first book "Op Art in the Process of Creation" was published in 2012. Her second book "Digital Art in the Process of Formation" was published in October 2018. She became an Associate Professor in Interdisciplinary Art in 2019. Avci Tuğal is currently Associate Professor at Işık University, Faculty of Art, Design and Architecture, Visual Communication Design Department. She continues her academic studies and research on the relationship between art and design with different disciplines, cultural heritage and museology. She has been conducting academic research and producing art works mainly in the field of "Digital Art" since 1995 in the field of art.
